NSL Analytical Services, Inc. Names Leo VanderSchoor as Chief Operating Officer

Mr. VanderSchoor brings a wealth of industry-specific knowledge to the COO position.

Cleveland, OH—December 21, 2012—NSL Analytical Services, Inc. recently announced that Leo VanderSchoor has been named Chief Operating Officer of the growing testing services company. As a results oriented, collaborative leader, Mr. VanderSchoor brings a wealth of industry-specific knowledge to the COO position. He aims to increase profitability, streamline business operations, and improve customer and employee satisfaction levels. Leo brings experience in cultivating business portfolios and developing talent.

“After a comprehensive search, we have found a professional who brings the competencies of business experience needed to serve our customers as we grow and is an exceptional fit to our culture,” said Larry Somrack, President of NSL Analytical Services, Inc. “His leadership will be a catalyst to guide NSL Analytical toward our future vision and will strengthen the exemplary level of trust, commitment to technology, and the outstanding turnaround we as a team are proud to provide our customers.”

Prior to joining NSL Analytical Services, Mr. VanderSchoor was the General Manger of GE Lighting Global Fluorescent Systems, where he managed operations in North and South America, Europe and Asia. His global experience at GE also included leadership positions within GE Energy and GE Aviation.
