NSL Analytical Services, Inc. Continues to Expand with Three Recent Hires

Testing Lab adds Team Members to Customer Support, Sales and Quality Documentation

Cleveland, Ohio—October 23, 2012—NSL Analytical Services, Inc. continues to expand its operations and testing lab services, as the Cleveland-based analytical testing lab recently hired three new employees. **Geoff Mularchik** has been named *Customer Support and Inside Sales Manager*, **Erin DePeel** has been named *Customer Support Representative* and **Andrea Pierce** has been named *Quality Documentation Coordinator*.

“It’s an exciting time for NSL Analytical,” said Larry Somrack, President of NSL Analytical Services, Inc. “We’re expanding our facilities, adding new equipment and hiring great people in the process. Geoff, Erin and Andrea make excellent additions to our team.”

Mr. Mularchik comes into the *Customer Support and Inside Sales* position with more than 18 years of general management and customer service experience. Furthermore, he was hired to manage, direct, and coordinate inside sales and customer service functions. After working on a temporary basis, **Ms. DePeel** joined the customer service team to help with client support and sales. Specifically, she serves as a liaison for all transactions that take place at NSL Analytical.

Ms. Pierce enters the Quality Documentation Coordinator position with over 10 years of quality experiences. She is directly responsible for maintaining record retention systems for training, safety incidents, instrument verifications, internal and external round robins, and document changes at NSL Analytical’s facilities.

About NSL Analytical Services, Inc.

In business for over 67 years, NSL’s quality systems include certification as an ISO/IEC 17025 laboratory, Nadcap certified Materials Testing Laboratory and 10 CFR 50 Appendix B (Nuclear) Certified Independent Commercial Testing Laboratory providing reliable and cost effective chemical and metallurgical materials testing to customers throughout the United States and around the world.
