NSL Analytical Services, Inc. Announces Revised Quality System Manual

*Effort unites NSL Analytical and NSL Metallurgical under one common
Quality Management System.*

Cleveland, Ohio—April 10, 2013—NSL Analytical Services, Inc. recently released a revised Quality System Manual and the Quality Management System defined in that manual. The endeavor makes it possible for both the NSL Analytical location and the recently renovated NSL Metallurgical Testing facility to operate under one common Quality Management System.

Furthermore, this effort positions NSL Analytical and NSL Metallurgical Testing for increased growth and further aligns the entire organization around its key values of Trust, Technology and Turnaround.

With this revision, the content of NSL Analytical's multiple written testing methods remains unchanged except for document naming conventions.

Interested companies can receive a copy of NSL Analytical's new Quality System Manual by submitting a request on the company's website: <http://nslanalytical.com/quality-system-manual>.

About NSL Analytical Services, Inc.

In business for almost seven decades, NSL Analytical is a fully accredited independent commercial testing laboratory. NSL is certified as an ISO/IEC 17025 laboratory, Nadcap certified Materials Testing Laboratory and 10 CFR 50 Appendix B (Nuclear) laboratory. The company provides reliable and cost effective chemical and metallurgical materials testing to a global customer base. For more information, visit <http://www.nslanalytical.com>.
